

TACTILE SERIES

Tactile Graphics and Grade 2 Braille

For use in offices, medical buildings, schools, universities, museums, and government buildings. Tactile series is an attractive, yet very durable ADA compliant sign created by using raised text and by inserting machined and pressed Grade 2 Braille. Most of the time this sign is made from 1/8" non-glare acrylic, however it can be made from diverse materials such as Formica and metal laminated acrylic, Corian, clear and frosted acrylics of different thicknesses, wood, aluminum, and stainless steel.

Standard Features and Options:

- Updatable window inserts
- Standard and custom color choices
- Decorative Stand-Off mounting hardware
- Foam tape mount
- Surface or subsurface graphics
- Full color graphics
- Decorative frames

Changeable Window
